

## Smile Makeovers in a Spa-like atmosphere

If you've watched *Extreme Makeover* on TV, you've seen the dramatic difference a Smile Makeover can make to the person's overall appearance. Sometimes that is the most dramatic change of all.

Imagine having a perfect white smile. It can change how people see you and how you feel about yourself. You may even catch yourself smiling more.

Tremendous advances make enhancing your smile as simple as getting your nails done. So there really is no longer any reason to have a less than perfect smile these days.

In the Countryside area is located Cosmetic Dentist Dr. Jonathan Bromboz. He has been a dentist for over 30 years. He is a graduate of the prestigious Las Vegas Institute for Advanced Dental Studies, the premier post-graduate school in the country for cosmetic dentistry, and a member of the American Academy of Cosmetic Dentistry. His most enjoyable moments are when patients first see their new smile and, with tears in their eyes say, "Oh I can't believe the difference, I wish I had done this sooner!"

One of the latest things written up by Vogue Magazine, that Dr. Bromboz can do for you, is a "Trial Smile." What is a trial smile? Well, just as you wouldn't buy a pair of pants or a pair of glasses without trying them on, wouldn't it be great if you could see what your new smile would look like before you start. With the "Trial Smile," by Dr. Bromboz you can get a realistic "sneak preview." A small amount of temporary material is applied to your teeth in a quick 10-15 minute process and allows you to see immediately, in the mirror, how great a new smile would look on you and how it can enhance your overall appearance.

Another advance is **ZOOM**, the revolutionary 1 hour in-office whitening seen on Extreme Makeover. It has become one of the most popular procedures performed in cosmetic dentistry today. It is quick and effective and is perfect for an important special event, professional business meeting or just if you are a very busy person.

Added to other advances is the fact that “spa dentistry“ is here in Dr. Bromboz's office. Going to the dentist is not the same as it used to be. With spa dentistry the goal is to pamper you so much that you feel as though you were not in a dental office. In Dr. Bromboz's dental spa you'll find relaxing surroundings, feature length movies, Starbucks coffee, herb tea, muffins, hot herbal neck wraps, hot paraffin wax hand treatments, hot face towels and lip balm after treatment. These are just some of the amenities made available to you to make your visit more pleasant.

More and more people are looking for that perfect, white gleaming smile that is a picture of health. Ask Dr. Bromboz to share with you the latest advances they have become available to give you a picture perfect smile. Look over the dramatic changes in their “Before and After” photo book to see what kind of changes to your smile are possible. Try on a “trial smile” for yourself.

While partaking in some of the wonderful, new advances in Smile-makeovers indulge yourself in some of the soothing Spa amenities.

Remember, people spend a lot of time and money on clothes, make-up, hair, working out at the gym and forget about the appearance of their teeth. So don't forget, your smile is an integral part of your overall appearance. A perfect, white smile conveys health and confidence.

Dr. Jonathan J. Bromboz has been a dentist for over 30 years. He is a graduate of the prestigious Las Vegas Institute for Advanced Dental Studies, the premier post-graduate school in the country for cosmetic dentistry, and a member of the American Academy of Cosmetic Dentistry.
